Tender No. 01 (Surgical/Consumables Kit)**

Sr. No.	Schedule	Code	Item name and specification	Quantity	Unit/Sku	Recommendation From Bidder with Justification	Amendment Resolution
51	Technical	CON16	AMBU Bag (Silicon type) Paediatrics each 1400-1700 ml with Oxygen connecting tube ,Should be supplied with a carry pouch , Ambu bag should be complete with required autoclavable valves and other accessories,(Should have silicon rubber bellow to withstand autoclave at 134 deg.C, should be multiple times autoclavable),Consumable	3051	Each	<p>AMBU Bag (Silicon type) Paediatrics each 500 ml with Oxygenconnecting tube ,Should be supplied with a carry pouch , Ambu bag should be complete with required autoclavable valves and other accessories,(Should have silicon rubber bellow to withstand autoclave at 134 deg.C, should be multiple times autoclavable),Consumable.</p> <p>Actually for pediatric ballow capacity should be 500 ml</p> <p>2. Our Request:- volume of Pediatric Ambu bag should be 500ml -750 ml. as 1400-1700 ml is too high volume for Pedatric patients</p> <p>Justification :- Abstract of NHM is attached where Bag Volume is mentioned as 500ml-750ml capacity for pediatric patients . Majorly 1400-1700 ml is for adult patients .</p> <p>3. As per last sentence of specifications :- should be multiple times autoclavable</p> <p>Our Request:- Term Multiple times doesn't define the numbers as it also considered as 2-3 times too (point towards low quality product)</p> <p>So we request to clearly mention the number of times the Ambu Bag should capable to with stand auto clave cycles . In case for broader participation we request to clearly mention that how many times the ambu bag can with stand with auto clave cycles so please add in specifications that :- "Ambu Bag should be minimum 20 times auto clavable (with Test Reports)".</p> <p>4. Justification :- In attached abstract of NHM its clearly defined and mentioned that ambu bag should be 40 times autoclave.</p>	AMBU Bag (Silicon type) Paediatrics each 300- 500 ml and (variation of +/- 100 ml) with Oxygen connecting tube ,Should be supplied with a carry pouch , Ambu bag should be complete with required autoclavable valves and other accessories,(Should have silicon rubber bellow to withstand autoclave at 134 deg.C, should be multiple times autoclavable),Consumable
52	Technical	CON150	HBs Antigen kit Card(Pack of 10 card test with 10 Dropper, 1 Buffer Solution, 10 Pricking Lancet and 10 Alcohol Swab),Digonstic	201410	Kit	Rates should be quoted in per ml not per test as it is a biochemical test.In a Semiautomated test kit per test 0.5ml reagent is needed.Subject to minimum aspiration volume can be programmed in Instrument.	No change
53	Technical	CON75	CPK-MB Kit (Kinetic) 25 Test/Kit	546	Kit	Specimen choice should be mentioned like Whole blood,Serum Plasma because specified accessories are required in Whole Blood test only.	No change
54	Technical	CON322	Reagent total protein (100ml) Bottle	1551	Bottle	All Biochemistry chemicals are called Reagent so specially for Total protein kit it is not necessary to mention reagent . Pack size should also be 4x50ml instead of 100ml,both are equally used for estimation of protein in human serum and rates should be quoted in per ml not per bottle	Total protein test kit Rate should be quoted for per ml, pack size should be 100ml
55	Technical	CON341	VDRL kit (Strip)(50 Test/Kit)	35840	Kit	Product Name Should be Syphilis Test Strip instead of VDRL or RPR name is used for Flocculation Carbon Antigen Method which also used for Syphilis Testing.Sothat we request you to mention Disease Name which is generally used for Rapid Dip Srtip Test Kit.	No change

Sr. No.	Schedule	Code	Item name and specification	Quantity	Unit/Sku	Recommendation From Bidder with Justification	Amendment Resolution
67	Technical	CON18	AMBU Bag / Resuscitator Silicon 200-250 ml Infant Size-each, with Oxygen connecting tube ,Should be supplied with a carry pouch , Ambu bag should be complete with required autoclavable valves and other accessories,(Should have silicon rubber bellow to withstand autoclave at 134 deg.C), should be Multiple times autoclavable	2496	Each	Per last sentence of specifications :- should be multiple times autoclavable :- Our Request:- Term Multiple times doesn't define the numbers as it also considered as 2-3 times only (point towards low quality product) So we request to clearly mention the number of times the Ambu Bag should capable to with stand auto clave cycles . In case for broader participation we request to clearly mention that how many times the ambu bag can with stand with auto clave cycles so please add in specifications that :- "Ambu Bag should be minimum 20 times auto clavable (with Test Reports)". Justification :- In attached abstract of NHM its clearly defined and mentioned that ambu bag should be 40 times autoclave.	No change
68	Technical	CON145	Glucometer Strips (1) Should be able to use capillary blood samples, (2)should have expiry as printed on the label of the supplied box.(3)All strips should have at least one year expiry date from the date of supply, (1 Glucometer free with each 1 thousand strips)), Rate should be quoted for 50 strip /paket	10700700	Packet	1-we would like to notify that as per specification Rate has to be Quoted for 50 strip pack and the asked Quatatity is 10700700 packets i.e 50 *107700700 Strips =535035000 , Which is 50 times higher than the original demand before the Retender . kindly confirm the asked qty is in strips or in pack of 50s(packet). 2- There is demand of free glucometer placement through bundaling approach i.e 1 FOC per 1000 strips However missing the technical specification of glucometer which determine the accuracy and precision of result and ultimate treatment regeime of HCP. The product is widely used in emegency & ICU setup also and Critical in nature for the dose of Diabetes therapy required to patients. therefore request to look in to the same so that quality product can purchased to meet the current patients requirement. 3- We would like to inform you that one USFDA & ISO 15197: 2013 certified glucometer can successfully do 2000-3000 test with minimum 2 year life . therefore asked qty of 1 glucometer per 1000 Glucostix is very much	Total quantity of this item is 10700700 strips and Rate should be quoted for 50 strips/ packet, and rest condition remain same
